DEALER BENEFITS

- The new DX5R Pro is Spektrum's high-end surface transmitter for racers, bashers and crawlers who values ergonomics, programmability and next-level connectivity
- Smart Technology compatible: when combined with Spektrum Firma Smart ESCs and Spektrum Smart capable receivers, the DX5 Pro receives telemetry data right to your transmitter through the Smart Throttle port on the receiver. Smart Throttle ESCs can send RPM, speed, ESC temp, volts and amp draw.
- 5.5 Millisecond Frame Rate: when paired with a receiver capable of 5.5ms frame rates, the DX5 Pro 2021 delivers lightning-fast response that gives new meaning to the word "connected".
- The DX5 Pro Transmitter System (SPM5025) is a coordinated launch item with a launch date of: 02/12/2021.
