OVERVIEW

Extreme Monster Truck Fun!

The Stampede VXL defines monster truck fun. Extreme Velineon® brushless power muscles the Stampede to speeds of 65mph and beyond while innovative Traxxas Stability Management® (TSM) makes the power more accessible. Pop a wheelie at 50mph and you'll appreciate the standard wheelie bar. You've probably never experienced throttle response and speed like this in a monster truck. Tough and unbelievably fast, Stampede is the ultimate play truck that's always ready for instant RC fun. The world of electric monster trucks will never be the same again!

QUICK FEATURES ON Stampede VXL (#36076-4)

- Traxxas Stability Management
- TQi™ 2.4GHz Transmitter and Receiver
- Waterproof Electronics
- Traxxas High-Current Connector
- Maxx® Cable 12-Gauge Wiring
- Digital High-Torque Waterproof Steering Servo
- Magnum 272 Transmission with Steel Gears
- Precision Steel Turnbuckles with Heavy-Duty Rod Ends
- Metric Hex Hardware
- Battery and Charger Sold Separately

Traxxas Stability Management®

Traxxas Stability Management (TSM) lets you experience the Stampede VXL's extreme power, speed, and acceleration by making it much easier to control on slippery surfaces such as loose dirt, smooth concrete, and even ice and snow. Go ahead, punch it off the line! TSM senses the vehicle's direction and makes steering corrections to provide full throttle acceleration without fishtailing or spinouts. When cornering, TSM intuitively corrects the vehicle's line for faster exit speeds. TSM even improves braking by keeping the truck arrow straight until you reach a complete stop. TSM does all this without intruding on driving fun or introducing unexpected side effects. TSM can be fine-tuned (or turned off) for different surfaces by simply adjusting the multi-function knob on the TQi transmitter, or by adjusting the slider in the Traxxas Link app. Drive faster and have more fun with TSM. You may not even realize how much it is helping until you try to drive without it.

Proven, Class-Leading Velineon Brushless Power

The Velineon brushless motor and electronic speed control (ESC) work together as an optimized package to deliver the ultimate in efficiency, speed, and run time. With the Stampede VXL, your battery selection determines your speed and skill level. Velineon accepts the widest range of battery types, including 3-cell Lithium Polymer (LiPo) packs. These packs pump out over 11 volts of power for intense, skill level 5 speeds beyond 65mph! **Nothing else even comes close.** Built-in low-voltage detection in the VXL-3s™ ESC helps you maintain your LiPo battery packs in top condition.

100% Assembled and Ready for your Battery and Charger

The Stampede VXL rolls out of the box Ready-To-Race® with the advanced TQi 2.4GHz 2-channel radio system and powerful Velineon Brushless Power System. World-class engineering and Traxxas' attention-to-detail are some of the reasons why Stampede is a perennial favorite for heavy-duty monster truck fun. No other truck offers the level of support of the Traxxas Stampede VXL with its unparalleled parts availability. A staff of skilled Traxxas representatives make it convenient to find answers to your questions via phone, website, or email. We're here to ensure that your R/C experience is enjoyable, easy, and fun.

MODEL 36076-4: Fully assembled with Traxxas Stability Management®, TQi™ 2.4GHz radio system, Velineon® Brushless Power System, and ProGraphix® painted body.

Add Telemetry To Any Traxxas Model

Telemetry feedback requires a TQi Radio System with Traxxas Link Wireless Module or a TQi Radio System with Docking Base. Android, iPhone, iPad and iPod touch not included. Traxxas Link sensors and accessories sold separately. To experience all of the exciting TQi features, you must download the Traxxas Link app from the App Store or Google Play.
