

**SLASH 4x4**

1/10 SCALE 4WD SHORT COURSE TRUCK

OVERVIEW

**NEW! SLASH 4X4**  
**1/10 Scale High-Performance 4X4 Short Course Truck**  
**With Titan 12T 550 and XL-5 ESC**

## Built Slash Tough!

The Traxxas Slash set the standard for durability, performance, and fun by which all other short course trucks are measured. The new Slash 4X4 combines the best elements of the hardcore Slash 4X4 VXL with an unbeatable low price. Outfitted with the powerful Titan 12T 550 motor and bulletproof reliability of the waterproof XL-5 electronic speed control, the Slash takes on any high-flying, fender-banging, all-weather adventure you can throw at it. Grab your transmitter, rip some 4-wheel roost, and discover why nothing else is built like a Slash!

### QUICK FEATURES ON SLASH 4X4 (#68054-1)

- TQ™ 2.4GHz radio system
- 4-amp DC Peak Detecting Fast Charger
- Genuine Traxxas Power Cell 7-cell NiMH battery with iD™
- Waterproof electronics for all-weather, all-season RC fun
- Titan® 12-Turn 550 modified motor
- XL-5 electronic speed control
- Rugged, easy-to-disassemble modular composite frame
- Torque Control® slipper clutch with large 32P gears
- Tough fluid-filled front and rear differentials with steel gears
- ProGraphix® short course truck body with color-matching wheels
- Easily upgradable to extreme Velineon VXL brushless power

## Modified Muscle

The Titan 12T 550 modified motor pumps out incredible mod-motor power with virtually maintenance-

free operation, and long-lasting performance. The Titan's integrated cooling fan pulls cool air through vent tunnels molded into the motor plate to keep temperatures down. A cooler running motor equates to faster speeds, longer runtime, and extended motor life. The XL-5 Electronic Speed Control offers high current handling, EZ-Set® one-button setup, and smooth high-frequency control. Once reserved for high-end replacement ESCs, the XL-5 comes standard with three drive profiles, low voltage detection, thermal shutdown protection, gold-plated connectors, and incredibly low resistance. The patented Traxxas High-Current Connector opens the door for unrestricted current flow with today's high-power batteries.

#### 4-amp DC Peak Detecting Fast Charger

For quick, convenient, hassle-free charging, a 4-amp DC fast charger is included to maximize runtime and minimize down time. The included NiMH charger uses a 12-Volt DC power outlet for universal high-output charging. The brilliant LED provides charging status as soon as the battery is connected. The charger is optimized for charging your Traxxas iD Power Cell NiMH battery. Peak-detection circuitry makes sure the battery receives a full charge every time. The status LED flashes green to indicate when charging is in progress, then turns solid green when charging is complete for foolproof charging, peak performance, and maximum runtime.

#### Traxxas Power Cell NiMH Battery with iD

Slash 4X4 includes a Traxxas iD™ Power Cell™ Battery Pack optimized for free-flowing power and maximum punch with premium quality, low-resistance cells; flexible, silicone-jacketed 12-gauge wire; heavy-duty welded tabs; and Traxxas High-Current Connectors. Traxxas iD chargers (sold separately) auto-detect iD-equipped Power Cell batteries and automatically set and optimize charge settings. Precision assembly with attractive, individually wrapped cells and clear overwrap complete the package.

### 100% Fully Assembled and Ready-To-Race®

Slash 4X4 comes fully-assembled and Ready-To-Race® with the TQ 2.4GHz radio system, XL-5 electronic speed control, Titan 12T motor, painted and decaled body, pre-glued tires, and Quick Start Guide. Traxxas backs the Slash 4X4 and all of our products with top-notch support that is second to none. A staff of skilled representatives is on-hand to answer your questions via phone, website, or e-mail. Unmatched parts support allows Slash 4X4 to be serviced with parts and support from thousands of hobby dealers worldwide. Your investment is also protected by the Traxxas Lifetime Electronics Warranty. Traxxas goes the extra mile to ensure that your RC experience is easy and fun and fast!

**MODEL 68054-1:** Fully assembled, Ready-To-Drive®, TQ 2.4GHz Radio System, XL-5 electronic speed control, 4-amp DC Peak Detecting Fast Charger, 7-cell NiMH battery with iD™, and ProGraphix® painted body.
